

Environmental Policy

Engineering Horizons is committed to continually monitoring and improving the environmental performance of the company. It will regularly measure its impact on the environment and set targets to ensure ongoing improvement.

It is the policy of Engineering Horizons to:

1. Strive to prevent pollution in its processes and at its facilities.
2. Comply with all current legislation regarding environmental issues.
3. Encourage its suppliers to adopt similar principles where possible.
4. Set, monitor and review environmental performance, targets and objectives.
5. Ensure its staff understand the importance of protecting the environment and enlist their support to raise awareness and strive to improve the company's performance.
6. To continually improve the environmental performance of the company.
7. Actively promote recycling within the company and, where possible, its suppliers.
8. Seek to minimise harmful emissions of its fleet and power usage.
9. Minimise waste by regular evaluation of operations and efficiency.
10. Source a product range or supply services that will minimise the environmental impact of the company's distribution and production.
